

Laima Pilelienė

Profile

I am currently enrolled in the modular professional training program for Full Stack Developer at the Baltic Technology Institute. In a short span, I have rapidly acquired a diverse set of skills, gaining hands-on experience with projects involving HTML, CSS, JavaScript, PHP, SQL, as well as React and Laravel frameworks. Now, I am ready to continue learning, prepared to take new challenges, and further enhance my capabilities through real-world practice and job opportunities.

Work Experience

Feb 2018– June 2019

THERMO FISHER SCIENTIFIC BALTICS, Vilnius

Junior Scientist

Independent experiment planning and execution (E-gel, NGS, qPCR). New product research and development (PCR, RT-PCR, RT-qPCR, qPCR). Analytical method development and validation, documentation preparation, product design verification and validation. Experimental data analysis and presentation to cross-functional team members and managers.

2014 – 2015

THERMO FISHER SCIENTIFIC BALTICS, Vilnius

Junior Bioanalyst

Quality control laboratory: testing new product by various protocols and experiments (PCR, qPCR, Spectrometry, DNR, Protein electrophoresis, endotoxin testing, measuring enzymatic activities (by spectrophotometry, radiolabeling, fluorescence), enzymatic plate assay (ELISA)). Documentation preparation.

2014 – 2018

THERMO FISHER SCIENTIFIC BALTICS, Vilnius

Intern

Designing and performing experiments by various laboratory equipment. Experimental data analysis, summarizing and presentation. Bachelor and Master research projects.
